

# MuscleGrid 12S 20A Smart BMS for LiFePO4 Battery (36V · Bluetooth)

Smart BMS · 12 cells · 20A continuous · Bluetooth app

|                    |                                                  |
|--------------------|--------------------------------------------------|
| Type               | Smart BMS (battery management system)            |
| Supported cells    | 12S LiFePO4 (36V nominal)                        |
| Continuous current | 20A                                              |
| Chemistry          | LiFePO4 (LFP)                                    |
| Monitoring         | Bluetooth app — cell voltage, current, temp, SOC |
| Balancing          | Passive cell balancing                           |
| Protection         | OCP / OVP / UVP / SCP / OTP                      |
| In the box         | BMS unit + balance-lead harness                  |

**Important:** This is a lithium battery **component** sourced and quality-checked by MuscleGrid and labelled under the MuscleGrid brand — it is **not manufactured by MuscleGrid** and is **not BIS-certified**. It is intended for DIY / integration use by people who know how to build and wire lithium packs. It is **not a charger**. Cover is **DOA-only** (report a dead-on-arrival unit within 48 hours) unless a warranty option is purchased. Shipping is charged at actuals.
